- SceneSwitch color change

Premium quality

- EyeComfort - light that's easy on the eyes

Highlights

Suitable for low ceilings Slim design Enhance your moment Tunable with memory function

Memorize your favorite tunings of different light settings to easily find your perfect level of illumination.

SceneSwitch color change

SceneSwitch Color Change lets you set the overall mood of a living space at home. Stay focused with cool daylight, be more productive with cool white light or wind down and relax with warm white light. In essence, consumers can control the lights in their home according to their daily activities.

Eyecomfort

Poor quality light can cause eye strain. With many of us spending time indoors, it's more important than ever to properly light your home. Our products meet stringent test criteria including flicker, strobe, glare, color rendition and dimming effects to ensure they meet EyeComfort requirements. Philips LED bulbs not only deliver comfortable light, but also stay that way for the duration of their lifespan, delivering consistent light quality, output, and color for more than a decade. Switch to light that's easy on your eyes. Your eyes will thank you.

Specifications
